## ENJOY COSY MOMENTS

The team of the VILLA Schweizerhof welcomes its guests with culinary honesty: regional dishes with love for detail await you from the pots and pans of executive chef Marcel Ineichen and his team. The own, generous and delicately scented herb garden delights young and old alike and provides daily inspiration for the kitchen crew. At the same time, it also reminds us that the origin of true culinary delight lies in the quality of the ingredients used. That is why the «Appellation Origine Schweizerhof» is not only used for the herbs. Thanks to close partnerships, we know exactly where the product comes from, whether it is a vegetables, meat or wine.
